Kimber James (born April 2, 1988 in Miami, Florida, United States^[2]) is a transsexual pornographic actor and escort^{[1][3]}. In 2010, she won the [AVN Award](#) for Transsexual Performer of the Year^[4].

James began her career in the porn industry as an assistant to transsexual performer [Gia Darling](#) and later made her film debut in "Transsexual Babysitters 4"^[5]. In 2008, she became the first transsexual performer to sign with the agency [LA Direct Models](#)^[5]. In June 2009, she performed with a [cisgender](#) female for the first time in a scene with [Angelina Valentine](#)^[6]. In May 2010 she appeared in [Maxim](#).

James was born with [Klinefelter's syndrome](#) and began her transition at the age of 12^{[7][8]}. [Klinefelter's syndrome -- also 47,XXY or XXY syndrome -- is a genetic disorder in which there is at least one extra X chromosome to a normal human male karyotype for a total of 47 chromosomes rather than the 46 found in genetically normal humans. While females have an XX chromosomal makeup and males an XY, individuals with Klinefelter syndrome have at least two X chromosomes and at least one Y chromosome. Because of the extra chromosome, individuals with the condition are usually referred to as "XXY males" or "47,XXY males".] Standing just 5'3", Kimber's small stature and petite build is

popular with fans and often commented upon: "Rising shemale superstar Kimber James is known for her petite body, pouty lips, and big tranny cock"^[9].

Kimber is a [pre-operative transsexual](#) in that she has undergone hormone treatment and multiple feminizing surgeries including facial surgeries and breast implants. But she has not yet undergone full genital SRS, retaining her functional penis/testes in contrast with other [T-girl](#) porn stars such as Mandy Mitchell etc. undergoing orchiectomies^[10] and [Danielle Foxxx](#) who chose to undergo a full sex change and continue in the industry^[11].
